WHAT IT MAKES

Four kinds of posts, with or without your face

You give it 3 to 5 photos of yourself (or pick a made-up star, or go faceless) and answer a few questions about your brand. Then you tell Claude what you want to post, in plain words, and the studio makes it.

≈ 8¢ EACH

Picture posts

AI photos of you in any scene or outfit: the gym, a kitchen, a beach, an office, a stage.

EXAMPLE

"Me in a cozy sweater with a pumpkin latte in a fall coffee shop." → a ready-to-post photo, plus a caption.

≈ 38¢ EACH

Short videos

8-second vertical clips with your hook line big on screen. Made for Reels and TikTok.

EXAMPLE

A slow-motion clip of you lacing up sneakers, with "Stop skipping leg day. Here's why." on screen.

FROM ≈ 4¢ A CLIP

Talking videos

Your photo speaks a 30-second script in your cloned voice, with captions burned in.

EXAMPLE

"3 things I wish I knew before my first 5K" read in your voice, mouth moving, captions on.

≈ 1¢ PER 10

Captions + calendar

Captions written the way you talk, with hashtags, plus a posting calendar for a week or a month.

EXAMPLE

"Plan my November, 3 posts a week, holiday deals in the last week." → 12 posts with dates and captions.

Many brands

Run a fitness page and a cooking page? Each one is its own saved project with its own photos, voice and folder.

Any niche

Fitness, beauty, food, travel, money, comedy, parenting, faith, fashion, wellness, or your own.

My CRM included

Brand deals, money owed and paid, due dates, contacts and your DMs in one place. See page 6.

YOUR FACE IS OPTIONAL

Show your face, or don't

Lots of big pages never show a real face. When you start a project, Claude asks who the star is. Each project can have its own star.

THE STAR · OPTION 1

You, from your photos

3 to 5 everyday photos of you. The studio puts you in any outfit or scene.

> GOOD FOR
> Coaches, experts and personal brands who want to be known.

THE STAR · OPTION 2

A made-up AI person

Describe them (age, look, vibe). Pick from 3 options. The same face shows up in every post. About 40¢ to create, once.

> GOOD FOR
> Private people, side pages, or a brand "face" that isn't you.

THE STAR · OPTION 3

A cartoon or animated character

Your own mascot in 3D animated, 2D cartoon, anime, clay or storybook style. It can talk in a voice you pick.

> EXAMPLE
> A smiling coffee cup who gives morning money tips.

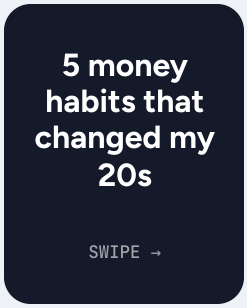

THE STAR · OPTION 4

No one: faceless

Nobody on camera at all. Scenes, hands, products and text do the talking.

> GOOD FOR
> Quotes, tips, recipes, money, motivation, and how-to pages.

Faceless post styles

STYLE	WHAT IT IS	ABOUT
Voiceover video	3 scenes with a slow zoom, a voice reads the script, captions on screen	≈ 24¢ each
Text slides	A swipe post: a bold hook, 3 or 4 tips, a call to action, on an AI background	≈ 8¢ each
Hands only	Close-ups of hands cooking, typing or holding a product. Never a face	≈ 8¢ a picture
Cartoon scenes	Animated-looking scenes instead of photos, in your art style	Same as pictures

The voice is your choice: your cloned voice, a ready-made AI voice, or no voice at all (music and captions only). A made-up star must be brand-new: never a real person, a celebrity, a lookalike, or someone else's character.

REAL EXAMPLES · NO REAL FACE

Three ways to post without your face

Every picture on this page was made by the studio itself, the same way a buyer would make them.

OPTION 2 · AI PERSON

A made-up person

Typed in: "friendly woman, early 30s, curly hair, green sweater, cozy home-cook vibe." She's nobody real, and the same face shows up in every post.

HER FIRST PICTURE

→

SAME FACE, IN A POST

OPTION 3 · CHARACTER

Your own mascot

Typed in: "a cheerful coffee cup with a teal sleeve," 3D movie style. It can star in every post and talk in the voice you pick.

THE CHARACTER

→

MORNING MONEY TIP POST

OPTION 4 · FACELESS

No one on camera

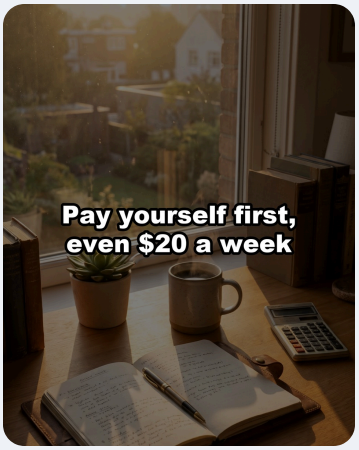

Hands-only pictures for how-to posts, and swipe-through text slides. The studio writes the words and draws the slides.

HANDS ONLY

SLIDE 1 · THE HOOK

SLIDE 2 · A TIP

EXAMPLES

What a week could look like

Meet "Mia," a made-up fitness creator. Her profile says: friendly and hype, followers are busy moms 25 to 40, catchphrase "no excuses, just reps," goal is link in bio.

PICTURE POST · MONDAY

What she typed: "Me in work clothes doing a desk stretch, for moms who work 9 to 5."

Caption the studio wrote:
"Stuck at a desk all day? 🙋 Same. Try this 60-second stretch between meetings: shoulders, neck, hips. Your back will thank you. No excuses, just reps 💪 Full desk routine at the link in bio. #workingmom #deskstretch #momfitness"

SHORT VIDEO · WEDNESDAY

On screen: "Crunches won't flatten your belly. Do this instead."

8 seconds of Mia on a yoga mat, vertical, ready for Reels and TikTok.

TALKING VIDEO · FRIDAY

Script (in her cloned voice): "Moms, real talk. You don't need an hour. You need 12 minutes and a kitchen floor. Squats while the coffee brews, push-ups on the counter, lunges to the car. That's it. No excuses, just reps. Link in bio for the full plan."

Her posting calendar (made for her)

DAY	TYPE	IDEA	CALL TO ACTION
Mon	Picture	60-second desk stretch	Link in bio
Wed	Short video	Crunches vs. this move	Save this
Fri	Talking video	12-minute kitchen workout	Link in bio
Sun	Picture	Meal-prep Sunday, 3 easy lunches	Comment "PREP" for the list

Mia is an example. Your posts follow your own profile, your words and your rules (things to never say or show are saved too).

HOW IT WORKS

Set up once. Then just ask.

Claude is your coach the whole way. It explains every word before using it and waits for you to say "done" before the next step.

1

Guided setup, about 45 minutes

Claude makes two Desktop folders (one for your photos, one for finished posts), a locked note for your keys, and walks you through each AI service you need, one click at a time.

2

Your creator profile

Ten quick questions: your niche, your followers, how you talk, your catchphrases, which apps, what followers should do next, and what to never say.

3

Clone your voice

Claude writes a reading script made for your niche, then helps you record and upload it. Or pick a ready-made AI voice instead.

4

Preview, approve, build

You see post 1 and the full price first. Nothing is spent until you say "confirm." Finished posts land in your Output folder, ready to upload.

Pick how close your voice sounds

	PROFESSIONAL CLONE	QUICK CLONE
You read	A 60-minute script in 6 parts. Split it over a few days.	A 2-minute script

IF YOU WANT TO BE AN INFLUENCER

Why creators use it

Growing an audience mostly comes down to showing up again and again, looking good, and sounding like yourself. That's the part this studio makes easier.

Post every week without a camera crew

No ring light, no outfit changes, no reshoots. A month of posts can be planned and made in one afternoon.

Look like a bigger creator

Studio-style photos in any setting: a city office, a beach, a kitchen. Content that would normally take a photographer and a location.

Sound like you, even when you're tired

Your voice clone reads your scripts. Captions are written in how you talk, with your catchphrases.

Grow without showing your face

Stay private with a made-up star, a cartoon mascot, or faceless voiceovers and text slides.

Test ideas cheaply

Not sure if your followers want recipes or workouts? Try both for a few cents each and keep what works.

Ready for brand money

When deals come in, the CRM tracks the pitch, the promise, the due date and the payment, so nothing slips.

Pay once, keep it

The kit is a one-time price. You pay the AI services directly, with no markup, only for what you make.

No tech skills needed

Claude explains every step like you've never done it before, and can look at your browser with you to point at the right button.

GOOD TO KNOW

The studio makes it easier to post. It can't promise followers or sales. Those still come from your ideas, your niche and how often you show up.

THE HONEST LIST

Pros and cons

So you know exactly what you're getting before you buy.

Pros

- ✓ **A month of content in an afternoon**
  Pictures, short videos, talking videos and captions from one plan.
- ✓ **Cheap per post**
  Pennies for a picture, under 40¢ for a short video.
- ✓ **Face optional**
  Use your photos, a made-up AI person, a cartoon character, or go fully faceless.
- ✓ **You see the price first**
  Every batch shows a sample and the cost before anything is spent.
- ✓ **Nothing posts by itself**
  Posts land in your folder. DM replies wait for you to press Send.
- ✓ **Your keys stay on your Mac**
  In a locked note and the studio's own file, never in a chat.
- ✓ **CRM included**
  Brand deals, money, due dates and DMs, free on your Mac.
- ✓ **One-time price**
  Unlimited projects and profiles.

Cons

- – **Mac only for now**
  A Windows version is coming, but it isn't ready yet.
- – **Monthly service costs**
  About $25 to $50 a month for the AI services, plus a paid Claude plan.
- – **First setup takes time**
  About 45 minutes, and the best voice clone needs an hour of reading.
- – **AI isn't perfect**
  Some pictures come out off (hands, text, odd details). You'll redo a few.
- – **Quick voice clone is close, not perfect**
  The Professional clone sounds much more like you.
- – **DM limits come from the apps**
  Instagram and Facebook DMs only. Replies must go out within 7 days (24 hours for the easy kind). TikTok and LinkedIn DMs can't be read by any outside app.
- – **Mac CRM is off when your Mac is off**
  Go online (about $5/month) to use it on your phone.
- – **Cartoon mouths aren't perfect**
  Talking cartoon characters don't lip-sync as well as a real face. You see a sample first.
- – **Followers still want something real**
  Mix in real moments. Most apps also ask you to label AI-made posts.
